Intervention after DOW:

After DOW on minor, resolve minor's diplomatic status. Major power that is most favored may intervene for free.

If this major power declines to intervene, next most favored power gets same option for a free intervention.

Cost of English/Spanish DOW:

Starts at 5 CP. Reduce as follows (but not below 1 CP):

- 2 CP if Elizabeth excommunicated
- 3 CP if Mary Queen of Scots executed
- 2 CP if Mary Queen of Scots captured (but not yet executed)

Immediate Triggers of English/Spanish War:

Spanish units enter Ireland or Scotland
 England intervenes after Spain DOW on Portugal

English land units enter Netherlands (unless as Spanish ally)

Rebellion adds Spanish units to English space

Key: Number in DOW box is the CP value of card(s) that must be played to declare war on that power.

† Cannot declare war on Portugal until DEATH OF KING SEBASTIAN (Mandatory Event).

^{\$} Cost is 0 if war is due to a rebellion. Spain and the Protestant may never ally.

* Cost is 0 if war is due to a rebellion.

If says "Possible Ally", may add diplomatic influence but may not declare war.
